EPA Identification Number: CAD982508541

Dear Mr. Beatty:

On August 9, 2012, representatives of the U.S. Environmental Protection Agency (EPA) and Rincon Band of Luiseño Indians Environmental Department (RBLI-ED) conducted an unannounced hazardous waste management compliance evaluation inspection (CEI) of the Survival Systems International (SSI) facility located in Valley Center, California. During the course of this investigation, information was gathered in accordance with Section 3007(a) of the Resource Conservation and Recovery Act ("RCRA"), as amended {42 U.S.C. § 6927(a)}.

Pursuant to Section 3008 of RCRA [42 U.S.C. 6928] EPA required you to correct the identified areas of noncompliance noted during the investigation.

Documentation submitted by SSI on October 25, 2012, adequately addresses the violations which were noted during the inspection and documents their return to compliance with the regulations cited in the inspection report. This letter should not be construed as a determination by EPA of your compliance with any and all other applicable regulations.

SSI should continue to take the necessary steps to maintain and ensure compliance with all applicable Federal, State and local environmental requirements. If you have questions related to technical aspects of the investigation report or this letter, please contact Daniel Fernandez of my staff at (415) 972- 3299 or fernandez.daniel@epa.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read "John Schofield".
